

DONATIONS FOR ESSENTIAL SERVICES

Loop Provides Automated Marketing Solutions For Local Businesses

Loop has developed a program for your Essential

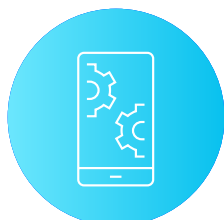

Service to receive **donations** from local business to help the front line get through the **COVID-19** pandemic.

Loop makes the fragmented management of donation easy. It is important for hospitals to streamline food fulfillment and be able to manage food delivery time, volume, type and location. Hospitals will have a Loop portal to log into and see a summary of all money donated, a restaurant summary and easily place an order.

YOUR INSTITUTION'S DONATIONS

You take 5 mins to set up your institution to receive donations from local business that are crowdsourcing digital gift cards from consumers. Loop is the middle man connecting restaurants to hospitals.

EASY TO IMPLEMENT & OPERATE

All you need to do is setup your medical facility in the Loop system for consumers to choose their donation. The only thing you need to do is allocate a facilitator of deliveries.

Children's Hospital of Michigan said "Thanks to Pizza Papalis for serving Children's ED midnight staff tonight!" – Facebook, Mar. 28, 2020
